Today we take a look at the new features introduced in Service Pack 2: Nightdocking. Flight Simulator X: Nightdocking Service Pack 2 (V2.0) provides a night-landing training session for planes. It includes new features such as a new night-sky which includes stars, moon, and clouds, as well as the addition of a special night-docking view. Also included are new lights on the passenger seats, and new sounds for certain in-flight events. The game is a full-featured flight simulator, including a variety of airports. In this article we will take a closer look at the new features. Product name: Service Pack 2 - Nightdocking (FSX:SP2) Company: Microsoft Price: \$10.99/£6.99/€8.99 Platforms: Windows Release date: 9th October 2010 Overview Microsoft Flight Simulator X: Nightdocking Service Pack 2 (V2.0) provides a night-landing training session for planes. It includes new features such as a new night-sky which includes stars, moon, and clouds, as well as the addition of a special night-docking view. Also included are new lights on the passenger seats, and new sounds for certain in-flight events. In this review we will take a closer look at the new features and some of the changes that are made in this release of Flight Simulator X. If you are interested in a list of all the new features of FSX, you can find them here. Aims Train pilots with their night-landing training using FSX SP2 (V2.0). Features The features of this update are split into four categories: The new night-landing view In the standard view of Flight Simulator X, you see a three-dimensional sky above. In the new night-landing view, the sky is represented by 2D. This 2D sky includes stars, moon, and clouds. The new night-docking view In this view you see the runway and the plane that will be docked. It also shows the location of the runway lights and information about the wind speed and direction. In this review we will look at each of these four features in more detail. Preparations Before you can go on to the main topic 82157476af
